

LINER

Universal HTM71 liner

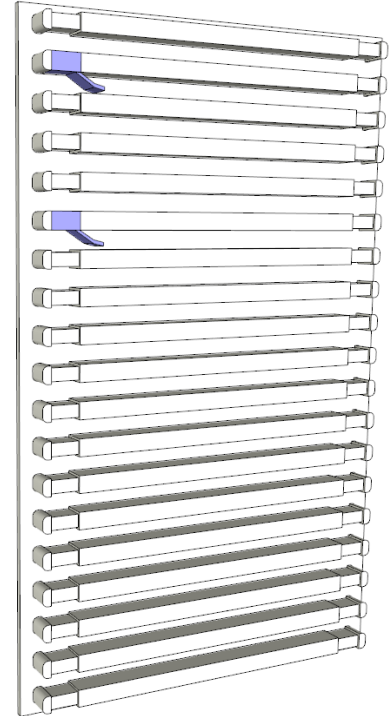

Description

HTM71 storage cabinets can be fitted with our universal HTM71 liners that allow the HTM71 trays to be fitted and arrested at an angle.

Liners are manufactured from ABS plastic and allow the polycarbonate HTM71 trays to slide into place.

The Medspace 455 and 655 wide HTM71 cabinetry are designed to comply with the NHS HTM 71 Health Technical Memorandum - Materials Management Modular Storage.

At the core of the HTM71 system is the ISO module storage insert (AKA the tray) measuring 600 x 400 mm.

Part No.	Description	Width	Depth	Height
